Define the Problem Statements

Date	18 June 2026
Student Name	Narendula Jashwanth
Project Name	ShopEZ – Full Stack E-Commerce Platform Using MERN Stack
Maximum Marks	2 Marks

Customer Problem Statement Template:

ShopEZ is an individual e-commerce web application project. The main purpose of this project is to provide a simple online shopping platform where users can register, log in, view products, add items to cart, place orders, and manage their profile. The project also includes an admin dashboard to manage products, users, and orders.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Online Shopper/User	View products, add items to cart, and place orders easily	Existing shopping platforms may be confusing or difficult to use	Product browsing, cart, and order features are not always simple	Confused and time-wasted
PS-2	Admin/Shop Owner	Manage products, users, and orders properly	Manual management takes more time and may cause errors	Store data is not organized in one place	Difficult to manage the business efficiently
