Project Overview:

Project Name: ShopEZ – Full Stack E-Commerce Platform Using MERN Stack

Project Description: ShopEZ is an individual e-commerce web application project. It allows users to register, log in, view products, add items to cart, place orders, view order history, and manage their profile. The admin can manage products, users, and orders through the admin dashboard.

Project Version: Version 1.0

Testing Period: 11 June 2026 – 12 June 2026

Testing Scope:

The following features are tested in the ShopEZ project:

- User registration
- User login
- Product listing
- Product details
- Add to cart
- Update cart quantity
- Remove product from cart
- Place order
- View order history
- User profile management
- Admin login
- Admin product management
- Admin order management
- Database data storage

Testing Environment:

URL / Location: Localhost / ShopEZ Web Application

Frontend: React / Vite

Backend: Node.js and Express.js

Database: MongoDB

Credentials:

User Login: [Enter test user email and password]

Admin Login: [Enter admin email and password]

Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
